EXPERIENCE

Oracle | *Software Engineer, AI Platform*

Jun 2025 – Present

- Owned **end-to-end feature delivery**: **React/TypeScript** UI, **Node.js/Python** services, and **GitHub Actions CI/CD**.
- Built **autonomous multi-agent workflows** with **OpenAI Agents SDK/MCP** for **millions of daily transactions** at **99%+ uptime**.
- Engineered **distributed executor** routing workloads to **Docker/AWS Lambda** via **REST APIs**, with **S3** artifact memoization.
- Built **SSE-based observability** and incident detection, cutting redundant API calls **90%** and identifying production issues early.

QureAI | *ML Infrastructure Engineer*

Mar 2026 – Present

- Cut **p99 latency 420ms to 140ms** across **50K+ daily requests** using **async vLLM** on autoscaling **GCP Cloud Run**.
- Built **production observability** for latency, drift, and regressions with **CI/CD rollback** and failure alerting.
- Built **Airflow DAGs** for multi-stage **GCP** data pipelines with dependency tracking and failure alerting.

Nomura Research Institute Financial Technologies | *Software Engineer*

Sep 2019 – Aug 2023

- Operated **25+ Java microservices** for financial transactions and **1M+ users** at **99.9% uptime** on **AWS (EC2, RDS, SQS)**.
- Cut settlement-blocking aggregation from **8 minutes to 90 seconds** via **SQL indexed views** and batch partitioning.
- Standardized **REST API** failure contracts across **25+ services**, cutting escalations **60%**; led **post-incident reviews**.
- Mentored engineers on **code review** and deployment practices; explained architectural decisions to business stakeholders.

PROJECTS

Distributed KV Store / VPC Control Plane Simulator

github.com/ganeshhgupta/distributed-kv-store

- **Raft-consensus** KV store with **linearizable reads** and log compaction; simulated **VPC control plane** routing.

LangFetch

tinyurl.com/LangFetch

- **LangGraph** agent decomposes multi-table questions into dependent **SQL subqueries**; deployable as **MCP** server.

RootCause AI

github.com/ganeshhgupta/rootcause-ai

- **LangGraph multi-agent system** diagnoses incidents through tool-use chains and synthesizes **root cause reports**.

EDUCATION

University of Texas at Arlington | *M.S. Computer Science, GPA 4.0/4.0*

Aug 2023 – May 2025

MCKV Institute of Engineering | *B.Tech Computer Science*

Jul 2016 – Jul 2020

SKILLS

Languages: Java, Python, C++, TypeScript, JavaScript, SQL, HTML/CSS

Systems & Data: Distributed Systems, REST APIs, Spring Boot, PostgreSQL, Redis, DynamoDB, Data Structures and Algorithms

Cloud & AI: AWS, GCP Cloud Run, Docker, Kubernetes, GitHub Actions, CI/CD, LangGraph, MCP, Unit Testing

CERTIFICATIONS

AWS Certified Developer Associate | GCP Professional MLOps Engineer
