EXPERIENCE

Oracle | *Software Engineer, AI Platform*

Jun 2025 – Present

- Owned full-stack delivery of user-facing features end-to-end, from React/TypeScript frontend through Python/FastAPI backend services, at 99%+ uptime.
- Replaced polling with SSE for live metrics streaming, optimizing frontend rendering performance and cutting redundant API calls 90%.
- Used AI coding tools (Claude Code, GitHub Copilot) daily to accelerate development while auditing generated output for architectural integrity, performance, and security risk.
- Participated in design and code reviews enforcing unit testing, coding standards, and security practices across the platform.

QureAI | *ML Infrastructure Engineer*

Mar 2026 – Present

- Built a model observability framework tracking drift, latency, and eval regressions in production, enabling governance-aligned rollback workflows.
- Cut p99 serving latency 420ms to 140ms across 50K+ daily requests by migrating synchronous serving to async on GCP Cloud Run with autoscaling.

Nomura Research Institute Financial Technologies | *Software Engineer*

Sep 2019 – Aug 2023

- Built and operated 25+ production microservices in Java, C++, and SQL-backed distributed systems for 1M+ users, sustaining 99.9% uptime over 3 years on AWS (EC2, RDS, SQS).
- Standardized failure-handling contracts across 25+ financial services, reducing production escalations 60% in one quarter via consistent retry, timeout, and propagation semantics.

PROJECTS

Watch-your-LLM

github.com/ganeshhgupta/watch-your-llm

- Full-stack platform with FastAPI backend, React/TypeScript dashboard, and PostgreSQL, exposing REST APIs for rubric-based scoring and latency tracking at scale.

Distributed KV Store / VPC Control Plane Simulator

github.com/ganeshhgupta/distributed-kv-store

- Raft-consensus distributed KV store handling concurrent writes with linearizable reads and log compaction; companion VPC control plane simulator modeling subnet routing.

RootCause AI

github.com/ganeshhgupta/rootcause-ai

- Multi-agent system automating production incident diagnosis via tool-use chains; routes alerts to specialized sub-agents and synthesizes root cause reports.

EDUCATION

University of Texas at Arlington | *M.S. Computer Science, GPA 4.0/4.0*

Aug 2023 – May 2025

MCKV Institute of Engineering | *B.Tech Computer Science*

Jul 2016 – Jul 2020

SKILLS

Languages: JavaScript, TypeScript, Java, Python, C++, SQL

Front-End: React, HTML, CSS, Performance Optimization, Unit Testing

Backend: FastAPI, REST APIs, Microservices, Distributed Systems

Data & Cloud: PostgreSQL, MongoDB, NoSQL, AWS, GCP, Docker, Kubernetes, CI/CD

CERTIFICATIONS

AWS Certified Developer Associate | Google Cloud Professional Machine Learning Engineer
