EXPERIENCE

Oracle | *Software Engineer, AI Platform*

Jun 2025 – Present

- Architected and led development of production GenAI systems across multiple LLM/multimodal providers (OpenAI, Anthropic, Google), driving model evaluation and selection tradeoffs via the OpenAI Agents SDK and MCP tool-use.
- Led design of a multimodal ingestion and transformation pipeline orchestrating multi-step generation workflows with output-quality control across channels, in Python and C++, at 99%+ uptime.
- Owned a deployment-gated evaluation framework for GenAI model outputs, designing automated test and rollback gates that blocked 15% of failed releases before production.
- Deployed a RAG retrieval and generation pipeline on AWS SageMaker, debugging and tuning for real-time decision support at sub-200ms p99 latency.

QureAI | *ML Infrastructure Engineer*

Mar 2026 – Present

- Trained and evaluated computer vision and generative models (PyTorch), including CNN/ResNet backbones with UNet-based segmentation, debugging model quality issues end to end.
- Led the redesign of a production retrieval architecture, improving recall 61% to 89% on a 2K-query eval set via hybrid dense-sparse retrieval and re-ranking.

Nomura Research Institute Financial Technologies | *Software Engineer*

Sep 2019 – Aug 2023

- Architected 25+ production C++/Java distributed services for 1M+ users at 99.9% uptime over 4 years on AWS, leading architecture decisions and code-review sessions.
- Standardized API contracts and failure-handling across 25+ services, reducing production escalations 60% via consistent retry, timeout, and testing standards.

PROJECTS

HoG-ViT

github.com/ganeshhgupta/HoG-ViT

- Vision Transformer incorporating Histogram of Oriented Gradients features into patch embeddings for image classification, improving robustness to lighting and pose variation.

RootCause AI

github.com/ganeshhgupta/rootcause-ai

- LangGraph multi-agent system automating production incident diagnosis via tool-use chains; routes alerts to specialized sub-agents and synthesizes evidence-backed root cause reports.

Watch-your-LLM

github.com/ganeshhgupta/watch-your-llm

- Production GenAI evaluation platform with rubric-based scoring, hallucination detection, and regression alerting across model versions; FastAPI backend, PostgreSQL.

EDUCATION

University of Texas at Arlington | *M.S. Computer Science, GPA 4.0/4.0*

Aug 2023 – May 2025

MCKV Institute of Engineering | *B.Tech Computer Science*

Jul 2016 – Jul 2020

SKILLS

Languages: Python, C++, Java, TypeScript, SQL

GenAI/ML: LLMs, Multimodal Pipelines, Prompt Engineering, RAG, Model Evaluation/Optimization, PyTorch, TensorFlow

Computer Vision: CNN, ResNet, UNet, Vision Transformers, Image Segmentation

Infra: AWS (SageMaker, Lambda, EC2), GCP, Docker, Kubernetes, CI/CD

CERTIFICATIONS

AWS Certified Developer Associate | Google Cloud Professional Machine Learning Engineer
