Experience

Oracle

Jun 2025 – Present

Software Engineer, AI Platform

- Build full-stack platform capabilities (React/TypeScript frontend, Python/FastAPI backend) integrating agentic AI workflows into production.
- Own CI/CD pipelines, containerized deployment (Docker, Kubernetes), and Terraform infrastructure as code on AWS.
- Combine GraphRAG with vector-based RAG for grounded retrieval, designing REST APIs consumed across product teams.
- Built a deployment-gated evaluation framework enforcing guardrails and observability, blocking 15% of failed releases before production.

QureAI (AI Startup)

Mar 2026 – Present

ML Infrastructure Engineer

- Built PySpark data processing jobs for large-scale ingestion and transformation feeding downstream model training pipelines.
- Built automated data-quality monitors tracking drift and regression across pipeline runs.

Nomura Research Institute Financial Technologies

Sep 2019 – Aug 2023

Software Engineer

- Architected 25+ production Java Spring Boot microservices exposing REST APIs, serving 1M+ users at 99.9% uptime on AWS (EC2, RDS, SQS).
- Drove a redesign of nightly data aggregation and ETL, cutting processing from 8 minutes to 90 seconds via indexed views and batch partitioning.
- Standardized failure-handling contracts across 25+ services, reducing production escalations 60% in one quarter.
- Mentored engineers through code reviews and design write-ups, driving consistent engineering standards.

Projects

LangFetch | tinyurl.com/LangFetch

- Full-stack app with TypeScript/Node.js backend, React dashboard, and PostgreSQL; decomposes natural-language questions into dependency-ordered SQL subqueries via typed REST API.

Watch-your-LLM | github.com/ganeshhgupta/watch-your-llm

- Production eval/monitoring platform with drift tracking, rubric-based scoring, and regression alerting; FastAPI backend, PostgreSQL.

RootCause AI | github.com/ganeshhgupta/rootcause-ai

- Multi-agent system diagnosing production incidents via tool-use chains; routes alerts to specialized sub-agents and synthesizes evidence-backed root cause reports.

Education

University of Texas at Arlington

Aug 2023 – May 2025

MS, Computer Science, GPA 4.0/4.0

MCKV Institute of Engineering

Jul 2016 – Jul 2020

BTech, Computer Science

Skills

Languages: Python, Java, TypeScript, SQL, C++

Full-Stack: React, FastAPI, Spring Boot, REST APIs, PostgreSQL

Cloud & DevOps: AWS (EC2, RDS, SQS), Docker, Kubernetes, Terraform, CI/CD

Data & AI: RAG, PySpark, Data Pipelines

Certifications

AWS Certified Developer Associate | GCP Professional MLOps Engineer
