EXPERIENCE

Oracle | *Software Engineer, AI Platform*

Jun 2025 – Present

- Built a **distributed executor** routing work to **Docker/AWS Lambda**; **S3** artifact reuse eliminated redundant recomputation.
- Built **SSE** observability and automated incident detection, cutting polling calls **90%** and finding issues before user impact.
- Owned **React/TypeScript** and **Node.js/Python** products end-to-end, shipping with **GitHub Actions CI/CD**.
- Used **Claude Code** and **Codex** for **AI-assisted engineering** across the team.

QureAI | *ML Infrastructure Engineer*

Mar 2026 – Present

- Cut **p99 latency 420ms to 140ms** across **50K+ daily requests** with async **vLLM** and **GCP Cloud Run** autoscaling.
- Built **production observability** for latency, drift and regressions with **CI/CD rollback** and failure alerting.
- Took **on-call rotation**, triaging infrastructure incidents end-to-end and restoring cloud services.

Nomura Research Institute Financial Technologies | *Software Engineer*

Sep 2019 – Aug 2023

- Operated **25+ AWS microservices** (EC2, RDS, SQS) for **1M+ users** at **99.9% uptime**.
- Standardized **retry/timeout** contracts across **25+ services**, reducing escalations **60%**; led **post-incident reviews**.
- Cut nightly settlement aggregation from **8 minutes to 90 seconds** using **indexed SQL views** and partitioning.

PROJECTS

RootCause AI

github.com/ganeshhgupta/rootcause-ai

- **LangGraph** agents triage **production incidents**, route alerts and synthesize **root cause reports** to reduce MTTR.

Watch-your-LLM

github.com/ganeshhgupta/watch-your-llm

- **FastAPI/React** observability platform tracks **drift**, latency and regression alerts across LLM versions.

Distributed KV Store / VPC Control Plane Simulator

github.com/ganeshhgupta/distributed-kv-store

- **Raft** KV store with linearizable reads; **VPC control plane** simulator models subnet routing and security groups.

EDUCATION

University of Texas at Arlington | *M.S. Computer Science, GPA 4.0/4.0*

Aug 2023 – May 2025

MCKV Institute of Engineering | *B.Tech Computer Science*

Jul 2016 – Jul 2020

SKILLS

Cloud & Platform: AWS (EC2, RDS, SQS, Lambda, S3, ECS/EKS), GCP Cloud Run, Docker, Kubernetes, Terraform

Automation & Operations: Python, Bash, Git, GitHub Actions CI/CD, Prometheus, Grafana, on-call, incident response

Systems & Security: Linux, networking fundamentals, REST APIs, Redis, OAuth, RBAC, distributed systems

Development: Claude Code, Codex, C++, SQL, TypeScript, HTML/CSS, data structures & algorithms

CERTIFICATIONS

AWS Certified Developer Associate | GCP Professional MLOps Engineer
