EXPERIENCE

Oracle | *Software Engineer, AI Platform*

Jun 2025 – Present

- Led design and development of agentic AI workflows across multiple LLMs (GPT, Claude, Llama, Gemini), a major cross-functional feature adopted across the engineering team.
- Built a deployment-gated evaluation and developer-tooling platform with rubric-based benchmarking that blocked 15% of regressions before release, used daily by the engineering team.
- Built a multi-agent system via OpenAI Agents SDK and MCP tool-use handling millions of daily transactions at 99%+ uptime.
- Drove design and code reviews enforcing style and testability standards, and held strong, tested opinions on how software should be engineered and qualified.

QureAI | *ML Infrastructure Engineer*

Mar 2026 – Present

- Built a model observability framework tracking drift, latency, and eval regressions in production, enabling governance-aligned rollback workflows.
- Cut p99 inference latency 420ms to 140ms across 50K+ daily requests by migrating synchronous serving to async vLLM on GCP Cloud Run with autoscaling.

Nomura Research Institute Financial Technologies | *Software Engineer*

Sep 2019 – Aug 2023

- Built and operated 25+ production microservices for 1M+ users, sustaining 99.9% uptime over 3 years on AWS (EC2, RDS, SQS).
- Standardized failure-handling contracts across 25+ financial services, reducing production escalations 60% via consistent retry, timeout, and propagation semantics.

PROJECTS

Watch-your-LLM

github.com/ganeshhgupta/watch-your-llm

- Developer-facing eval and observability tool with rubric-based scoring, drift detection, and latency tracking across model versions; FastAPI backend, PostgreSQL.

RootCause AI

github.com/ganeshhgupta/rootcause-ai

- LangGraph multi-agent developer tool automating production incident diagnosis via tool-use chains; routes alerts to specialized sub-agents and synthesizes root cause reports.

LangFetch

tinyurl.com/LangFetch

- LangGraph agent decomposing multi-table questions into dependency-ordered SQL subqueries with intermediate result passing; packaged as an MCP-compatible developer tool for enterprise data queries.

EDUCATION

University of Texas at Arlington | *M.S. Computer Science, GPA 4.0/4.0*

Aug 2023 – May 2025

MCKV Institute of Engineering | *B.Tech Computer Science*

Jul 2016 – Jul 2020

SKILLS

Languages: Python, TypeScript, SQL

Developer Tooling: Eval/Regression-Testing Platforms, Observability Frameworks, MCP, Developer-Facing CLI/Dashboards

AI/LLM: LLMs (GPT, Claude, Llama, Gemini), Agentic AI, LangChain, LangGraph, OpenAI Agents SDK

Cloud & Infra: AWS, GCP, Docker, Kubernetes, CI/CD

CERTIFICATIONS

AWS Certified Developer Associate | Google Cloud Professional Machine Learning Engineer
