EXPERIENCE

Oracle | *Software Engineer, AI Platform*

Jun 2025 – Present

- Architected **multi-agent AI systems** with **LangGraph**, **CrewAI**, and the **OpenAI Agents SDK**, taking them from prototype to production at **millions of daily transactions** and **99%+ uptime**.
- Shipped a **deployment-gated evaluation framework** with automated regression testing, **blocking 15% of failed releases** before production.
- Built **Prometheus/Grafana** observability and autoscaling for **vLLM** inference serving, correlating compute and network telemetry to catch regressions early.
- Built **MCP** tool-use and function calling across **GPT**, **Claude**, **Llama**, and **Gemini**, tuning model choice per task on quality, latency, and cost per request.

QureAI | *ML Infrastructure Engineer*

Mar 2026 – Present

- Owned **ML infrastructure** end to end, from model deployment to evaluation and debugging, cutting p99 latency **420ms to 140ms** across **50K+ daily requests**.
- Benchmarked **5+ multi-agent RL architectures** on a multi-GPU **PyTorch** cluster under distributed interference for robustness-critical inference pipelines.

Nomura Research Institute Financial Technologies | *Software Engineer*

Sep 2019 – Aug 2023

- Built and operated **25+ production microservices** for **1M+ users** on **AWS** (EC2, RDS, SQS), sustaining **99.9% uptime** over four years.
- Cut nightly financial data aggregation blocking downstream settlement from **8 minutes to 90 seconds** by redesigning **SQL** with indexed views and batch partitioning.
- Standardized failure-handling contracts across **25+ financial services** and drove root-cause analysis, reducing production escalations **60%** in one quarter.

PROJECTS

Watch-your-LLM

github.com/ganeshhgupta/watch-your-llm

- LLM evaluation** platform with rubric-based scoring, **drift detection**, and latency tracking across model versions; **FastAPI**, **PostgreSQL**, regression alerting.

RootCause AI

github.com/ganeshhgupta/rootcause-ai

- Multi-agent incident-diagnosis system with tool-use chains that collects evidence from logs and metrics and synthesizes root-cause reports.

LangFetch

tinyurl.com/LangFetch

- LangGraph** agent decomposing natural-language questions into dependency-ordered **SQL** subqueries with hybrid retrieval and re-ranking; deployable as an **MCP** server.

EDUCATION

University of Texas at Arlington | *M.S. Computer Science, GPA 4.0/4.0*

Aug 2023 – May 2025

MCKV Institute of Engineering | *B.Tech Computer Science*

Jul 2016 – Jul 2020

SKILLS

Languages: Python, C++, Go, SQL

AI/ML: LangGraph, OpenAI Agents SDK, MCP, LangChain, RAG, vLLM, Reinforcement Learning, Evaluation & Guardrails

Cloud: AWS, GCP (Vertex AI), Kubernetes, Docker

Infra: PostgreSQL, Redis, Observability (Prometheus, Grafana)

CERTIFICATIONS

AWS Certified Developer Associate | GCP Professional MLOps Engineer
