EXPERIENCE

QureAI | ML Infrastructure Engineer

Mar 2026 – Present

- Built **PySpark** data-processing jobs for large-scale feature and dataset preparation feeding downstream model training and **evaluation** pipelines.
- Raised **top-3 retrieval recall from 61% to 89%** by rebuilding a **RAG** pipeline with **hybrid dense-sparse retrieval** and **re-ranking** for an **agentic AI** workflow.
- Rebuilt synchronous **LLM** serving into an **async, autoscaled** architecture on **GCP Cloud Run**, cutting **p99 latency from 420ms to 140ms** across **50K+ daily requests**.

Oracle | Software Engineer, AI Platform

Jun 2025 – Present

- Deployed production **AI workloads** on **Azure** alongside **AWS**, using **Azure-native services** for model hosting and pipeline orchestration.
- Built and exposed **FastAPI**-based **REST APIs** for a distributed executor backed by **NoSQL** storage, with independent debugging and **production triage** as part of the on-call workflow.
- Built a deployment-gated **evaluation framework** with **guardrails** for **GenAI** releases, catching regressions before production.

Nomura Research Institute Financial Technologies | Software Engineer

Sep 2019 – Aug 2023

- Designed high-throughput **SQL** and **NoSQL** data pipelines on **AWS SQS**, cutting batch processing from **8 minutes to 90 seconds** via indexed views and partitioning.
- Architected **25+ production microservices** for **1M+ users** at **99.9% uptime** over 4 years, independently debugging and triaging production issues.

PROJECTS

LangFetch

tinyurl.com/LangFetch

- **LangGraph** agent decomposing multi-table questions into dependency-ordered **SQL** subqueries, served via **FastAPI** as an **MCP-compatible** server.

RootCause AI

github.com/ganeshhgupta/rootcause-ai

- **LangGraph** multi-agent system diagnosing production incidents via **tool-use** chains and specialized sub-agents.

Watch-your-LLM

github.com/ganeshhgupta/watch-your-llm

- Self-hosted **LLM** observability platform with **hallucination scoring**, a **FastAPI** collector, and a **React** dashboard.

EDUCATION

University of Texas at Arlington | *M.S. Computer Science, GPA 4.0/4.0*

Aug 2023 – May 2025

MCKV Institute of Engineering | *B.Tech Computer Science*

Aug 2016 – Jul 2020

SKILLS

Languages: Python, TypeScript, Java, SQL

GenAI & Agentic AI: LangGraph, LangChain, MCP, RAG, PySpark

Backend: FastAPI, REST APIs, NoSQL

Cloud & Infra: Azure, AWS, GCP, Docker, CI/CD

Certifications: AWS Certified Developer Associate, GCP Professional MLOps Engineer
