EXPERIENCE

Oracle | *Software Engineer, AI Platform*

Jun 2025 – Present

- Designed ML infrastructure spanning model deployment, evaluation, and data processing for production systems handling millions of daily transactions at 99%+ uptime.
- Debugged and optimized production model-serving performance, cutting redundant data calls 90% through profiling-driven architectural changes.
- Built a deployment-gated evaluation framework enforcing quality and regression checks across model outputs, blocking 15% of failed releases before production.

QureAI | *ML Infrastructure Engineer*

Mar 2026 – Present

- Developed multi-modal computer vision models (CNN and ResNet backbones, UNet-based segmentation, PyTorch) for medical image understanding, running model training and fine-tuning on multi-GPU clusters with compression and quantization for efficient inference.
- Built evaluation frameworks measuring model quality independently, designing test sets and choosing metrics to track drift, latency, and regression in production.

Nomura Research Institute Financial Technologies | *Software Engineer*

Sep 2019 – Aug 2023

- Built and operated 25+ production C++ and SQL-backed distributed systems for 1M+ users, sustaining 99.9% uptime over 3 years on AWS (EC2, RDS, SQS).
- Debugged and resolved failures across distributed services, improving reliability through consistent retry, timeout, and error-handling patterns.

PROJECTS

HoG-ViT

github.com/ganeshhgupta/HoG-ViT

- Built a Vision Transformer that incorporates Histogram of Oriented Gradients features into patch embeddings, improving robustness to lighting and pose variation for image classification.

RootCause AI

github.com/ganeshhgupta/rootcause-ai

- Multi-agent system automating production incident diagnosis via tool-use chains; routes alerts to specialized sub-agents and synthesizes evidence-backed root cause reports.

Watch-your-LLM

github.com/ganeshhgupta/watch-your-llm

- Production ML evaluation platform with rubric-based scoring, drift detection, and regression alerting across model versions; FastAPI backend, PostgreSQL.

EDUCATION

University of Texas at Arlington | *M.S. Computer Science, GPA 4.0/4.0*

Aug 2023 – May 2025

MCKV Institute of Engineering | *B.Tech Computer Science*

Jul 2016 – Jul 2020

SKILLS

Languages: C++, Python, Java, TypeScript, SQL

Computer Vision: Vision Transformers, CNN, ResNet, UNet, Image Classification, Image Segmentation, Multi-Modal Learning

ML Infrastructure: Model Deployment, Model Evaluation, Data Processing, Debugging, Model Training/Fine-Tuning (Multi-GPU)

Systems: Data Structures & Algorithms, Distributed Systems, Performance Debugging, AWS, Docker, CI/CD

CERTIFICATIONS

AWS Certified Developer Associate | Google Cloud Professional Machine Learning Engineer
