Experience

Oracle

Jun 2025 – Present

Software Engineer, AI Platform

- Serve as a primary driver of feature delivery across the full stack, working effectively across backend services, APIs, and a React/TypeScript front end rather than one corner of the codebase.
- Owned a deployment-gated data-quality pipeline enforcing automated quality, latency, and drift checks before every release, maintaining CI/CD pipelines and production support rotation for the team.
- Applied GenAI tooling (OpenAI Agents SDK, MCP tool-calling) daily to accelerate development and support efficiency on production workflows handling millions of daily transactions at 99%+ uptime.

QureAI

Jan 2024 – May 2025

ML Infrastructure Engineer

- Drove a retrieval-quality redesign improving recall 61% to 89% on a 2K-query eval set, writing and optimizing complex queries against production data stores.
- Led migration of a synchronous service to an async, autoscaled architecture on GCP Cloud Run, cutting p99 latency 420ms to 140ms across 50K+ daily requests.

Nomura Research Institute Financial Technologies

Aug 2020 – Aug 2023

Software Engineer

- Architected and operated 25+ production Java microservices exposing REST APIs for 1M+ users, sustaining 99.9% uptime over 3 years on AWS (EC2, RDS, SQS) in a distributed, fault-tolerant architecture.
- Drove a redesign of a nightly batch data pipeline aggregating financial transactions, cutting downstream-blocking processing from 8 minutes to 90 seconds via complex SQL query and schema optimization.
- Led standardization of failure-handling contracts across 25+ services as part of a self-managing Agile team, reducing production escalations 60% in one quarter through code reviews and design write-ups.

Projects

Distributed KV Store / VPC Control Plane Simulator | github.com/ganeshhgupta/distributed-kv-store

- Built a Raft-consensus key-value store with leader election, log replication, and log compaction; companion VPC control plane simulator modeling subnet routing and security group enforcement for fault-tolerant distributed coordination.

Watch-your-LLM | github.com/ganeshhgupta/watch-your-llm

- Production eval platform with rubric-based scoring, drift detection, and per-call latency tracking across model versions; FastAPI backend, React/TypeScript dashboard, PostgreSQL.

Education

University of Texas at Arlington

Aug 2023 – May 2025

MS, Computer Science, GPA 4.0/4.0

MCKV Institute of Engineering

Jul 2016 – Jul 2020

BTech, Computer Science

Skills

Languages: Java, TypeScript, JavaScript, Python, SQL

Full-Stack: React, REST APIs, Object-Oriented Design, Microservices, Relational & NoSQL Design (PostgreSQL, DynamoDB)

Delivery: Agile/Scrum, Git, CI/CD, Automated Testing, Production Support, GenAI-Assisted Development (OpenAI Agents SDK, MCP)

Cloud: AWS (Lambda, EC2, S3, RDS, SQS), GCP (Cloud Run), Docker, Kubernetes

Certifications

AWS Certified Developer Associate | GCP Professional MLOps Engineer
