EXPERIENCE

Oracle | *Software Engineer, AI Platform*

Jun 2025 – Present

- Shipped full-stack features end to end with **React/TypeScript** frontends on backend **REST APIs**, released through **GitHub Actions CI/CD**.
- Implemented **OAuth**-based auth and **RBAC** for secure service access, and reviewed pull requests in **design and code reviews**.
- Designed fault-tolerant stateful recovery with per-node **Redis** checkpointing so interrupted workflows resume from the last committed step.
- Built a **distributed executor** routing work to **Docker** containers and **AWS Lambda** via typed APIs, backed by **S3**, at **sub-200ms p99**.

QureAI | *ML Infrastructure Engineer*

Mar 2026 – Present

- Cut **p99 latency from 420ms to 140ms** across **50K+ daily requests** with an async, **Kubernetes**-autoscaled service and automated **CI/CD rollback**.
- Built backend services on **PostgreSQL** and **MongoDB** with automated failure alerting.

Nomura Research Institute Financial Technologies | *Software Engineer*

Sep 2019 – Aug 2023

- Architected **25+ production Java Spring Boot microservices** exposing **REST APIs** for financial transaction processing, serving **1M+ users** at **99.9% uptime** on **AWS (EC2, RDS, SQS)**.
- Standardized REST API contracts across 25+ **Java** services with consistent retry, timeout, and auth patterns, cutting escalations **60%** in one quarter.
- Optimized **SQL** and **PL/SQL** for a financial RDBMS, cutting nightly aggregation from **8 minutes to 90 seconds** via indexed views and partitioning.
- Built event-driven workflows on **AWS SQS** and led **code reviews**, mentoring engineers on testing and reliability.

PROJECTS

VPC Control Plane Simulator

github.com/ganeshhgupta/vpc-control-plane-sim

- Full-stack **Next.js/React** app simulating AWS-style VPC networking, with CIDR validation, routing, and a **PostgreSQL** backend.

Watch-your-LLM

github.com/ganeshhgupta/watch-your-llm

- Full-stack observability platform with a **React** dashboard, **FastAPI** collector, and **PostgreSQL** store.

Distributed KV Store

github.com/ganeshhgupta/Distributed-KV-Store

- Replicated key-value store implementing **Raft consensus** and **linearizable reads**, tolerating node failures without data loss.

EDUCATION

University of Texas at Arlington | *M.S. Computer Science, GPA 4.0/4.0*

Aug 2023 – May 2025

MCKV Institute of Engineering | *B.Tech Computer Science*

Aug 2016 – Jul 2020

SKILLS

Languages: Java, TypeScript, JavaScript, Python, SQL, HTML, CSS

Backend: Spring Boot, REST APIs, Microservices, OAuth, RBAC, AWS SQS, Kafka

Frontend: React, Next.js, TypeScript

Data & DevOps: PostgreSQL, MongoDB, Redis, Oracle PL/SQL, Docker, Kubernetes, GitHub Actions, AWS

Certifications: AWS Certified Developer Associate, GCP Professional MLOps Engineer
