Experience

Oracle

Jun 2025 – Present

Software Engineer, AI Platform

- Build agentic AI engineering harnesses (LangGraph, CrewAI, AutoGen, OpenAI Agents SDK) automating development, testing, deployment, and operational support workflows.
- Design and maintain CI/CD pipelines, infrastructure automation, and cloud-native deployment (Docker, Kubernetes, Terraform) across the platform.
- Use Claude Code and Codex daily as AI-assisted development tools, integrating agentic workflows with human-in-the-loop review into the SDLC.
- Built a deployment-gated evaluation framework with guardrails and observability, automating incident triage and root-cause analysis, blocking 15% of failed releases.

QureAI (AI Startup)

Mar 2026 – Present

ML Infrastructure Engineer

- Built custom evaluators for RAG/agent workflows tracking drift, latency, and regression across model versions, catching failures before they reached production.
- Improved semantic retrieval recall 61% to 89% on a 2K-query eval set by rebuilding the chunking pipeline with hybrid dense-sparse retrieval and re-ranking.

Nomura Research Institute Financial Technologies

Sep 2019 – Aug 2023

Software Engineer

- Architected and operated 25+ production C++ and SQL-backed microservices for 1M+ users in financial services, sustaining 99.9% uptime over 4 years on AWS (EC2, RDS, SQS).
- Drove a redesign of nightly data aggregation, cutting processing from 8 minutes to 90 seconds via indexed views and batch partitioning.
- Standardized failure-handling contracts (retry, timeout, propagation semantics) across 25+ services, reducing production escalations 60% in one quarter.
- Mentored engineers through code reviews and design write-ups, driving consistent engineering standards.

Projects

RootCause AI | github.com/ganeshhgupta/rootcause-ai

- LangGraph multi-agent system automating incident triage and root-cause analysis; routes alerts to specialized sub-agents and synthesizes evidence-backed reports, reducing mean time to resolution.

Watch-your-LLM | github.com/ganeshhgupta/watch-your-llm

- Production LLM eval platform with hallucination detection, drift tracking, rubric-based scoring, and regression alerting across model versions; FastAPI backend, PostgreSQL.

LangFetch | tinyurl.com/LangFetch

- LangGraph agent with MCP-compatible tool-use compiling natural-language questions into dependency-ordered SQL subqueries with vector retrieval and hybrid re-ranking; deployed as an MCP server.

Education

University of Texas at Arlington

Aug 2023 – May 2025

MS, Computer Science, GPA 4.0/4.0

MCKV Institute of Engineering

Jul 2016 – Jul 2020

BTech, Computer Science

Skills

Languages: Python, TypeScript, SQL, Java, C++

Agentic AI & Dev Tools: LangGraph, CrewAI, AutoGen, OpenAI Agents SDK, Claude Code, Codex, MCP, RAG

DevOps & Automation: CI/CD, Infrastructure Automation, Incident Triage/RCA, Guardrails, Observability

Cloud & Platform: AWS, GCP, Docker, Kubernetes, Terraform, GitHub Actions

Certifications

AWS Certified Developer Associate | GCP Professional MLOps Engineer
