EXPERIENCE

Oracle | *Software Engineer, AI Platform*

Jun 2025 – Present

- Provisioned and operated multi-cloud GPU clusters (AWS, GCP, CoreWeave) with InfiniBand/RoCE networking, tuning transport-layer performance for distributed training and inference workloads.
- Engineered a pluggable distributed executor routing workloads across Docker and AWS Lambda with an S3 artifact store, debugging intermittent, scale-sensitive system failures.
- Own production services end-to-end, architecture through deployment, monitoring, and on-call, handling millions of daily transactions at 99%+ uptime.
- Developed and automated test suites integrated into CI/CD pipelines, collaborating with cross-functional teams to validate releases.

QureAI | *ML Infrastructure Engineer*

Mar 2026 – Present

- Extended inference serving internals with kernel-level CUDA/Triton development, debugging performance-sensitive, intermittent failures across a distributed KV cache.
- Cut p99 serving latency 420ms to 140ms across 50K+ daily requests through systems-level performance tuning and an async serving redesign.

Nomura Research Institute Financial Technologies | *Software Engineer*

Sep 2019 – Aug 2023

- Built and operated 25+ production C++ and SQL-backed distributed systems for 1M+ users, sustaining 99.9% uptime over 4 years on AWS (EC2, RDS, SQS).
- Standardized failure-handling contracts across 25+ services, reducing production escalations 60% in one quarter via consistent retry, timeout, and propagation semantics.

PROJECTS

Distributed KV Store / VPC Control Plane Simulator

github.com/ganeshhgupta/distributed-kv-store

- Raft-consensus distributed storage engine in C++ handling concurrent writes with linearizable reads and log compaction; companion VPC control plane simulator modeling subnet routing and traffic forwarding.

Watch-your-LLM

github.com/ganeshhgupta/watch-your-llm

- Full-stack platform with FastAPI backend, React/TypeScript dashboard, and PostgreSQL, with automated test suites and CI/CD.

RootCause AI

github.com/ganeshhgupta/rootcause-ai

- Multi-agent system automating production incident diagnosis via tool-use chains, debugging system-level failures across distributed services.

EDUCATION

University of Texas at Arlington | *M.S. Computer Science, GPA 4.0/4.0*

Aug 2023 – May 2025

MCKV Institute of Engineering | *B.Tech Computer Science*

Jul 2016 – Jul 2020

SKILLS

Languages: C++, Python, Java, TypeScript, SQL

Networking & Systems: InfiniBand/RoCE, Distributed Systems, Consensus Protocols, Systems-Level Debugging, Performance Tuning

Infra: Multi-Cloud GPU Clusters (AWS, GCP, CoreWeave), CUDA/Triton Kernel Development, Docker, Kubernetes

DevOps: CI/CD, Automated Test Suites, Cross-Functional Integration

CERTIFICATIONS

AWS Certified Developer Associate | Google Cloud Professional Machine Learning Engineer
