EXPERIENCE

Oracle | *Software Engineer, AI Platform*

Jun 2025 – Present

- Designed and implemented AI guardrails and governance controls within a deployment-gated evaluation framework, blocking 15% of failed releases before production.
- Architected platform APIs (Python, REST) enabling teams to build, test, and launch GenAI and agentic AI applications end-to-end, with enterprise system integration via MCP tool-calling.
- Built a multi-agent system via OpenAI Agents SDK handling millions of daily transactions at 99%+ uptime, with documented functional and technical requirements for every integration.
- Designed and optimized agentic AI workflows across multiple LLMs (GPT, Claude, Llama, Gemini), translating business requirements into working API-integrated solutions.

QureAI | *ML Infrastructure Engineer*

Mar 2026 – Present

- Built a model observability and governance framework tracking drift, latency, and eval regressions in production, documenting system behavior for cross-functional stakeholders.
- Improved RAG retrieval recall 61% to 89% on a 2K-query eval set by rebuilding the chunking pipeline with hybrid dense-sparse retrieval and re-ranking.

Nomura Research Institute Financial Technologies | *Software Engineer*

Sep 2019 – Aug 2023

- Built and operated 25+ production microservices in Java, C++, and SQL-backed distributed systems for 1M+ users, sustaining 99.9% uptime over 3 years on AWS (EC2, RDS, SQS).
- Standardized failure-handling contracts across 25+ financial services, reducing production escalations 60% in one quarter via consistent retry, timeout, and propagation semantics.

PROJECTS

RootCause AI

github.com/ganeshhgupta/rootcause-ai

- Multi-agent system automating production incident diagnosis via tool-use chains, sourcing data from multiple systems and routing to specialized sub-agents.

LangFetch

tinyurl.com/LangFetch

- LangGraph agent with MCP-compatible tool-use compiling natural-language questions into dependency-ordered SQL subqueries; deployed as an API server for enterprise data queries.

Watch-your-LLM

github.com/ganeshhgupta/watch-your-llm

- Production LLM eval and governance platform with rubric-based scoring, drift detection, and regression tracking across model versions; FastAPI backend, PostgreSQL.

EDUCATION

University of Texas at Arlington | *M.S. Computer Science, GPA 4.0/4.0*

Aug 2023 – May 2025

MCKV Institute of Engineering | *B.Tech Computer Science*

Jul 2016 – Jul 2020

SKILLS

Languages: Python, TypeScript, Java, C++, SQL

Generative & Agentic AI: LLMs (GPT, Claude, Llama, Gemini), LangChain, LangGraph, OpenAI Agents SDK, MCP, AI Guardrails & Governance

Enterprise Integration: API Architecture, REST APIs, Enterprise System Integration, Functional & Technical Requirements Documentation

Cloud & DevOps: AWS, GCP, Docker, Kubernetes, CI/CD, PostgreSQL

CERTIFICATIONS

AWS Certified Developer Associate | Google Cloud Professional Machine Learning Engineer
