EXPERIENCE

Oracle | *Software Engineer, AI Platform*

Jun 2025 – Present

- Built and shipped **React/TypeScript** front-end surfaces wired to backend **REST APIs** and **ML/LLM** services, owning features end to end from UI through inference integration.
- Contributed to backend services supporting ML workloads, including data ingestion, **model evaluation**, and inference endpoints, in **Python**, at **99%+ uptime**.
- Built a multi-agent **GenAI** system via the **OpenAI Agents SDK** and **MCP** tool-use, integrating **RAG** and **prompt engineering** into production workflows.
- Improved observability and monitoring dashboards for ML systems; replaced polling with **SSE** for live metrics streaming, cutting redundant API calls **90%**.

QureAI | *ML Infrastructure Engineer*

Mar 2026 – Present

- Built **PySpark** data processing jobs for large-scale dataset preparation feeding downstream **model training** and **evaluation** pipelines.
- Improved **RAG** retrieval recall **61% to 89%** on a 2K-query eval set by rebuilding the data pipeline with hybrid dense-sparse retrieval and re-ranking.
- Trained and evaluated **computer vision** and **generative models (PyTorch)**, including **CNN/ResNet** backbones with **UNet**-based segmentation.
- Contributed to data infrastructure and **SQL**-based analytics supporting model training and evaluation workflows, collaborating with teammates through design and code reviews.

PROJECTS

Watch-your-LLM

github.com/ganeshhgupta/watch-your-llm

- Full-stack **LLM** evaluation platform with **React/TypeScript** frontend, **FastAPI** backend, and **PostgreSQL**; rubric-based scoring and regression alerting across model versions.

LangFetch

tinyurl.com/LangFetch

- Agent built with **LangChain/LangGraph** decomposing natural-language questions into dependency-ordered **SQL** subqueries; **React** dashboard with Node.js/TypeScript backend.

RootCause AI

github.com/ganeshhgupta/rootcause-ai

- Multi-agent system automating production incident diagnosis via tool-use chains; routes alerts to specialized sub-agents and synthesizes evidence-backed root cause reports.

EDUCATION

University of Texas at Arlington | *M.S. Computer Science, GPA 4.0/4.0*

Aug 2023 – May 2025

MCKV Institute of Engineering | *B.Tech Computer Science*

Jul 2016 – Jul 2020

SKILLS

Languages: Python, JavaScript/TypeScript, Java, SQL, C++

Full-Stack: React, Node.js, FastAPI, REST APIs, HTML5, CSS

ML/LLM: PyTorch, Hugging Face, LangChain, LangGraph, RAG, Prompt Engineering, Model Evaluation/Inference

Data & Cloud: PySpark, SQL-Based Analytics, AWS, GCP, Docker, Kubernetes, CI/CD

CERTIFICATIONS

AWS Certified Developer Associate | Google Cloud Professional Machine Learning Engineer
