EXPERIENCE

Oracle | *Software Engineer, AI Platform*

Jun 2025 – Present

- Built a production multi-agent system via the OpenAI Agents SDK and MCP tool-use, integrating external APIs and enterprise workflows end to end, handling millions of daily transactions at 99%+ uptime.
- Owned backend services and RESTful APIs (Python/FastAPI) from design through deployment and on-call, debugging production issues under real customer load.
- Designed and optimized agentic AI workflows across multiple LLMs (GPT, Claude, Llama, Gemini) with prompt engineering and tool-calling, tuning models per use case for latency, cost, and output quality.
- Built a deployment-gated evaluation framework enforcing guardrails and quality checks across model outputs, blocking 15% of failed releases before reaching customers.

QureAI | *ML Infrastructure Engineer*

Mar 2026 – Present

- Built a voice-based conversational agent as part of the production agentic AI product surface, handling real-time voice interaction end to end.
- Improved RAG retrieval recall 61% to 89% on a 2K-query eval set by rebuilding the data pipeline with hybrid dense-sparse retrieval and re-ranking.

Nomura Research Institute Financial Technologies | *Software Engineer*

Sep 2019 – Aug 2023

- Built and operated 25+ production Java microservices integrating enterprise systems and partner APIs for 1M+ users at 99.9% uptime over 4 years on AWS.
- Partnered directly with enterprise clients to translate business requirements into technical workflows, standardizing API contracts and reducing production escalations 60%.

PROJECTS

RootCause AI

github.com/ganeshhgupta/rootcause-ai

- LangGraph multi-agent system automating production incident diagnosis via tool-use chains; routes alerts to specialized sub-agents and synthesizes evidence-backed root cause reports, improving agent response quality.

LangFetch

tinyurl.com/LangFetch

- LangGraph agent with MCP-compatible tool-use decomposing natural language into dependency-ordered SQL subqueries; FastAPI backend deployed as an API server for enterprise data queries.

Watch-your-LLM

github.com/ganeshhgupta/watch-your-llm

- Production LLM/agent evaluation platform with rubric-based scoring, drift detection, and regression alerting across model versions; FastAPI backend, PostgreSQL.

EDUCATION

University of Texas at Arlington | *M.S. Computer Science, GPA 4.0/4.0*

Aug 2023 – May 2025

MCKV Institute of Engineering | *B.Tech Computer Science*

Jul 2016 – Jul 2020

SKILLS

Languages: Python, Java, TypeScript, SQL, C++

Agentic AI: LLMs (GPT, Claude, Llama, Gemini), Prompt Engineering, Tool-Calling, OpenAI Agents SDK, MCP, LangGraph, Voice Agents, RAG

Backend: FastAPI, REST APIs, Microservices, API Integrations

Data & Infra: MongoDB, PostgreSQL, Redis, Docker, Kubernetes, AWS, GCP, CI/CD

CERTIFICATIONS

AWS Certified Developer Associate | Google Cloud Professional Machine Learning Engineer
