Experience

Oracle

Jun 2025 – Present

Software Engineer, AI Platform

- Own the end-to-end software development lifecycle for platform features, from design and development through testing, deployment, and ongoing maintenance.
- Build full-stack capabilities (React/TypeScript frontend, Python/FastAPI backend) applying knowledge of databases and frameworks to build scalable, high-performance systems.
- Own CI/CD pipelines, containerized deployment (Docker, Kubernetes), and Terraform infrastructure as code on AWS.
- Mentor engineers and contribute to team growth through code reviews and best-practice modeling.

QureAI (AI Startup)

Mar 2026 – Present

ML Infrastructure Engineer

- Improved semantic retrieval recall 61% to 89% on a 2K-query eval set by rebuilding the chunking pipeline with hybrid dense-sparse retrieval and re-ranking.
- Built custom evaluators tracking drift, latency, and regression across model versions.

Nomura Research Institute Financial Technologies

Sep 2019 – Aug 2023

Software Engineer

- Architected 25+ production Java Spring Boot microservices exposing REST APIs, serving 1M+ users at 99.9% uptime on AWS (EC2, RDS, SQS).
- Standardized failure-handling contracts (retry, timeout, propagation semantics) across 25+ services, reducing production escalations 60% in one quarter.
- Mentored engineers through code reviews and design write-ups, driving consistent engineering standards.

Projects

LangFetch | tinyurl.com/LangFetch

- Full-stack app with TypeScript/Node.js backend, React dashboard, and PostgreSQL; decomposes natural-language questions into dependency-ordered SQL subqueries via typed REST API.

Watch-your-LLM | github.com/ganeshhgupta/watch-your-llm

- Production LLM eval platform with hallucination detection, drift tracking, rubric-based scoring, and regression alerting across model versions; FastAPI backend, PostgreSQL.

RootCause AI | github.com/ganeshhgupta/rootcause-ai

- Multi-agent system diagnosing production incidents via tool-use chains; routes alerts to specialized sub-agents and synthesizes evidence-backed root cause reports.

Education

University of Texas at Arlington

Aug 2023 – May 2025

MS, Computer Science, GPA 4.0/4.0

MCKV Institute of Engineering

Jul 2016 – Jul 2020

BTech, Computer Science

Skills

Languages: Python, TypeScript, SQL, Java, C++

Full-Stack: React, FastAPI, REST APIs, PostgreSQL, Redis

Cloud & DevOps: AWS, Docker, Kubernetes, Terraform, CI/CD

Practices: SDLC Ownership, Mentorship, Agile

Certifications

AWS Certified Developer Associate | GCP Professional MLOps Engineer
