Experience

Oracle

Jun 2025 – Present

Software Engineer, AI Platform

- Own multi-step agentic AI workflows (LangGraph, CrewAI, AutoGen, OpenAI Agents SDK), building reusable MCP-compatible components adopted across product teams.
- Combine GraphRAG with vector-based RAG and embeddings for grounded retrieval, designing distributed backend services and REST APIs.
- Own CI/CD pipelines and containerized deployment (Docker, Kubernetes) across the platform.
- Built a deployment-gated evaluation framework enforcing guardrails and observability, blocking 15% of failed releases before production.

QureAI (AI Startup)

Mar 2026 – Present

ML Infrastructure Engineer

- Improved semantic retrieval recall 61% to 89% on a 2K-query eval set by rebuilding the chunking pipeline with hybrid dense-sparse retrieval and re-ranking embeddings.
- Built custom evaluators tracking drift, latency, and regression across agent/model versions.

Nomura Research Institute Financial Technologies

Sep 2019 – Aug 2023

Software Engineer

- Architected and operated 25+ production Java Spring Boot microservices exposing REST APIs, serving 1M+ users at 99.9% uptime on AWS (EC2, RDS, SQS).
- Standardized failure-handling contracts (retry, timeout, propagation semantics) across 25+ distributed services, reducing production escalations 60% in one quarter.
- Mentored engineers through code reviews and design write-ups, driving consistent engineering standards.

Projects

RootCause AI | github.com/ganeshhgupta/rootcause-ai

- LangGraph multi-agent system diagnosing production incidents via tool-use chains; routes alerts to specialized sub-agents and synthesizes evidence-backed root cause reports.

Distributed KV Store & VPC Control Plane Simulator | github.com/ganeshhgupta/distributed-kv-store

- Built a distributed key-value store in Go/C++ implementing Raft consensus, linearizable reads, and log compaction for fault-tolerant data systems.

Watch-your-LLM | github.com/ganeshhgupta/watch-your-llm

- Production LLM eval platform with hallucination detection, drift tracking, rubric-based scoring, and regression alerting across model versions; FastAPI backend, PostgreSQL.

Education

University of Texas at Arlington

Aug 2023 – May 2025

MS, Computer Science, GPA 4.0/4.0

MCKV Institute of Engineering

Jul 2016 – Jul 2020

BTech, Computer Science

Skills

Languages: Python, Java, Go, SQL, C++

Agentic AI & RAG: LangGraph, CrewAI, AutoGen, OpenAI Agents SDK, MCP, RAG, Embeddings

Cloud & DevOps: AWS, Docker, Kubernetes, CI/CD

Systems: Distributed Systems, REST APIs, Raft Consensus

Certifications

AWS Certified Developer Associate | GCP Professional MLOps Engineer
