EXPERIENCE

Oracle | *Software Engineer, AI Platform*

Jun 2025 – Present

- Built production **Python/SQL pipelines** with **Airflow** and **BigQuery**, treating **idempotency**, retries, backfills, and failure recovery as first-class concerns.
- Designed **workflow orchestration** with **Redis checkpointing** so long-running jobs resume from the last committed step, plus a **distributed executor** across **Docker** and **AWS Lambda**.
- Built **Prometheus/Grafana** observability and **autoscaling** for **vLLM** inference serving, correlating compute and network telemetry to catch regressions early.
- Shipped a deployment-gated **evaluation** framework with automated regression **testing**, blocking **15%** of failed releases before production.

QureAI | *ML Infrastructure Engineer*

Mar 2026 – Present

- Built ML infrastructure for a **healthcare AI** product processing **clinical/medical data** in a regulated environment, cutting **p99 latency 420ms to 140ms** across **50K+ daily requests**.
- Improved retrieval recall **61% to 89%** on a 2K-query eval set by rebuilding chunking with **hybrid dense-sparse retrieval** and re-ranking.

Nomura Research Institute Financial Technologies | *Software Engineer*

Sep 2019 – Aug 2023

- Designed **Oracle PL/SQL** and **SQL** data layers behind financial services, tuning queries and schemas for low-latency reads at production scale.
- Built and operated **25+ production microservices** for **1M+ users** on **AWS** (EC2, RDS, SQS), sustaining **99.9% uptime** over four years.
- Standardized failure-handling contracts across services and drove root-cause analysis, cutting production escalations **60%** in one quarter.

PROJECTS

LangFetch

tinyurl.com/LangFetch

- **LangGraph** agent decomposing natural-language questions into dependency-ordered SQL subqueries with hybrid retrieval and re-ranking; deployable as an **MCP** server.

Watch-your-LLM

github.com/ganeshhgupta/watch-your-llm

- **LLM evaluation** platform with rubric-based scoring, drift detection, and latency tracking across model versions; **FastAPI**, **PostgreSQL**, regression alerting.

Distributed KV Store

github.com/ganeshhgupta/distributed-kv-store

- **Raft-consensus** distributed key-value store with **linearizable reads**, leader election, and **log compaction**.

EDUCATION

University of Texas at Arlington | *M.S. Computer Science, GPA 4.0/4.0*

Aug 2023 – May 2025

MCKV Institute of Engineering | *B.Tech Computer Science*

Jul 2016 – Jul 2020

SKILLS

Languages: Python, SQL, Java, Go

Data Platform: Snowflake, BigQuery, Airflow, Kafka, Entity Modeling, Data Quality & SLAs

Cloud: AWS, GCP, Docker, Kubernetes, Terraform, Observability

Domain: Healthcare Data, Regulated Environments, Financial Data

Fundamentals: Data Structures & Algorithms, Operating Systems, Database Systems, Computer Networks, HTML, CSS

Certifications: AWS Certified Developer Associate, Google Cloud Professional Machine Learning Engineer
