EXPERIENCE

Oracle | *Software Engineer, AI Platform*

Jun 2025 – Present

- Built, iterated on, and **evaluated ML/LLM models** in production with a deployment-gated **evaluation** framework and golden test sets, blocking **15%** of failed releases.
- Deployed models into production with backend code in **Python/FastAPI**, monitoring **model performance** and drift with **Prometheus/Grafana**.
- Architected **multi-agent AI** systems with **LangGraph**, **CrewAI**, and the **OpenAI Agents SDK**, taking them from prototype to production at **millions of daily transactions** and **99%+ uptime**.
- Built **MCP** tool-use and **function calling** across **GPT**, **Claude**, **Llama**, and **Gemini**, tuning model choice per task on quality, latency, and **cost per request**.

QureAI | *ML Infrastructure Engineer*

Mar 2026 – Present

- Improved retrieval recall **61% to 89%** on a **2K-query** labeled eval set with **hybrid retrieval** and re-ranking, and built **PyTorch** model-serving pipelines.
- Owned **ML infrastructure** end to end, from model deployment to evaluation and debugging, cutting **p99 latency 420ms to 140ms** across **50K+ daily requests**.

Nomura Research Institute Financial Technologies | *Software Engineer*

Sep 2019 – Aug 2023

- Built and operated **25+ production microservices** for **1M+ users** on **AWS** (EC2, RDS, SQS), sustaining **99.9% uptime** over four years.
- **Profiled compute and memory bottlenecks** across **Python/C++** services and optimized batching and **concurrency**, raising throughput **2.4x** and cutting memory **27%**.

PROJECTS

Watch-your-LLM

github.com/ganeshhgupta/watch-your-llm

- **LLM evaluation** platform with rubric-based scoring, drift detection, and latency tracking across model versions; **FastAPI**, **PostgreSQL**, regression alerting.

RootCause AI

github.com/ganeshhgupta/rootcause-ai

- **Multi-agent** incident-diagnosis system with **tool-use** chains that collects evidence from logs and metrics and synthesizes root-cause reports.

LangFetch

tinyurl.com/LangFetch

- **LangGraph** agent decomposing natural-language questions into dependency-ordered SQL subqueries with hybrid retrieval and re-ranking; deployable as an **MCP** server.

EDUCATION

University of Texas at Arlington | *M.S. Computer Science, GPA 4.0/4.0*

Aug 2023 – May 2025

MCKV Institute of Engineering | *B.Tech Computer Science*

Jul 2016 – Jul 2020

SKILLS

Languages: Python, SQL, Go, Java

ML: PyTorch, TensorFlow, Model Evaluation, Golden Label Sets, Anomaly Detection, LLMs

ML Systems: Model Deployment, vLLM, Monitoring, Drift Detection, Feature Pipelines

Cloud & DevOps: AWS, GCP, Kubernetes, Docker, Terraform, CI/CD, Prometheus, Grafana

Fundamentals: Data Structures & Algorithms, Operating Systems, Database Systems, Computer Networks, HTML, CSS

Certifications: AWS Certified Developer Associate, Google Cloud Professional Machine Learning Engineer
