EXPERIENCE

Oracle | *Software Engineer, AI Platform*

Jun 2025 – Present

- Designed and operated **distributed systems** in **C++**, **Go**, and **Python** for **GPU** scheduling and fault-tolerant placement across **AWS**, **GCP**, and **CoreWeave** at **high scale and availability**.
- Built **Python/FastAPI** backend services and a pluggable **distributed executor** routing workloads across **Docker** and **AWS Lambda** with an **S3**-backed artifact store.
- Built **Prometheus/Grafana** observability and **autoscaling** for **vLLM** inference serving, correlating compute and network telemetry to catch regressions early.
- Shipped a deployment-gated **evaluation** framework with automated regression **testing**, blocking **15%** of failed releases before production.

QureAI | *ML Infrastructure Engineer*

Mar 2026 – Present

- Built and operated **Kubernetes**-based **GPU** infrastructure across clouds, writing **Go** and **Python** tooling for scheduling and fault-tolerant placement.
- Owned **ML infrastructure** end to end, from model deployment to evaluation and debugging, cutting **p99 latency 420ms to 140ms** across **50K+** daily requests.

Nomura Research Institute Financial Technologies | *Software Engineer*

Sep 2019 – Aug 2023

- Built and operated **25+** production microservices for **1M+** users on **AWS** (EC2, RDS, SQS), sustaining **99.9% uptime** over four years.
- Profiled compute and memory bottlenecks** across **Python/C++** services and optimized batching and **concurrency**, raising throughput **2.4x** and cutting memory **27%**.
- Standardized failure-handling contracts across services and drove root-cause analysis, cutting production escalations **60%** in one quarter.

PROJECTS

Distributed KV Store

github.com/ganeshhgupta/distributed-kv-store

- Raft-consensus** distributed key-value store with **linearizable reads**, leader election, and **log compaction**.

RootCause AI

github.com/ganeshhgupta/rootcause-ai

- Multi-agent** incident-diagnosis system with **tool-use** chains that collects evidence from logs and metrics and synthesizes root-cause reports.

Watch-your-LLM

github.com/ganeshhgupta/watch-your-llm

- LLM evaluation** platform with rubric-based scoring, drift detection, and latency tracking across model versions; **FastAPI**, **PostgreSQL**, regression alerting.

EDUCATION

University of Texas at Arlington | *M.S. Computer Science, GPA 4.0/4.0*

Aug 2023 – May 2025

MCKV Institute of Engineering | *B.Tech Computer Science*

Jul 2016 – Jul 2020

SKILLS

Languages: C++, Java, Python, Go, SQL

Distributed Systems: Consensus (Raft), Replication, Fault Tolerance, Scheduling, Concurrency, High Availability

Cloud & DevOps: AWS, GCP, Kubernetes, Docker, Terraform, CI/CD, Prometheus, Grafana

Fundamentals: Data Structures & Algorithms, Operating Systems, Database Systems, Computer Networks, HTML, CSS

Certifications: AWS Certified Developer Associate, Google Cloud Professional Machine Learning Engineer
