EXPERIENCE

Oracle | *Software Engineer, AI Platform*

Jun 2025 – Present

- Designed, built, and operated **control plane** services in **Go**, **C++**, and **Python** for **GPU** scheduling and fault-tolerant placement across **multi-cloud** fleets (**AWS**, **GCP**, **CoreWeave**).
- Kept services **highly available** through node loss, load spikes, and **cloud provider disruptions** on clusters with **InfiniBand/RoCE** networking and **Slurm** scheduling.
- Built **observability** with **time-series metrics** and **Prometheus/Grafana** dashboards, plus playbooks and on-call improvements for inference serving.
- Built **Python/FastAPI** backend services and a pluggable **distributed executor** routing workloads across **Docker** and **AWS Lambda** with an **S3**-backed artifact store.

QureAI | *ML Infrastructure Engineer*

Mar 2026 – Present

- Built and operated **Kubernetes**-based **GPU** infrastructure across clouds, writing **Go** and **Python** tooling for scheduling and fault-tolerant placement.
- Optimized LLM serving with **CUDA/Triton** kernel work, **speculative decoding**, and **TensorRT-LLM** alongside **vLLM** on **Kubernetes**.

Nomura Research Institute Financial Technologies | *Software Engineer*

Sep 2019 – Aug 2023

- Operated **multi-tenant C++/Java** services for **1M+ users** on **AWS** at **99.9% availability** over four years, leading incident investigations with partner teams.
- Profiled compute and memory bottlenecks** in **C++/Python** data-processing services, raising throughput **2.4x** and cutting memory **27%**.
- Standardized failure-handling contracts across services and drove root-cause analysis, cutting production escalations **60%** in one quarter.

PROJECTS

Distributed KV Store

github.com/ganeshhgupta/distributed-kv-store

- Raft-consensus** distributed key-value store with **linearizable reads**, leader election, and **log compaction**.

Watch-your-LLM

github.com/ganeshhgupta/watch-your-llm

- LLM evaluation** platform with rubric-based scoring, drift detection, and latency tracking across model versions; **FastAPI**, **PostgreSQL**, regression alerting.

RootCause AI

github.com/ganeshhgupta/rootcause-ai

- Multi-agent** incident-diagnosis system with **tool-use** chains that collects evidence from logs and metrics and synthesizes root-cause reports.

EDUCATION

University of Texas at Arlington | *M.S. Computer Science, GPA 4.0/4.0*

Aug 2023 – May 2025

MCKV Institute of Engineering | *B.Tech Computer Science*

Jul 2016 – Jul 2020

SKILLS

Languages: C++, Go, Python, Java, SQL

Distributed Systems: Control Planes, Multi-Tenant Services, Storage Systems, High Availability, Raft Consensus

Infrastructure: Kubernetes, Docker, Linux, Observability (Time-Series Metrics, Dashboards), On-Call

Cloud: AWS, GCP, CoreWeave, Terraform, Prometheus, Grafana

Fundamentals: Data Structures & Algorithms, Operating Systems, Database Systems, Computer Networks, HTML, CSS

Certifications: AWS Certified Developer Associate, Google Cloud Professional Machine Learning Engineer
