EXPERIENCE

Oracle | *Software Engineer, AI Platform*

Jun 2025 – Present

- Developed across the **full stack**: **Python/FastAPI** and **Java** services, persistence, and platform layers for multi-agent AI workflows at **millions of daily transactions** and **99%+ uptime**.
- Streamed live agent output to **web interfaces** over **SSE** and owned **performance** tuning across services, with **Prometheus/Grafana** dashboards to catch regressions.
- Built **Python/FastAPI** backend services and a pluggable **distributed executor** routing workloads across **Docker** and **AWS Lambda** with an **S3**-backed artifact store.
- Shipped a deployment-gated **evaluation** framework with automated regression **testing**, blocking **15%** of failed releases before production.

QureAI | *ML Infrastructure Engineer*

Mar 2026 – Present

- Owned **ML infrastructure** end to end, from model deployment to evaluation and debugging, cutting **p99 latency 420ms to 140ms** across **50K+ daily requests**.
- Improved retrieval recall **61% to 89%** on a 2K-query eval set by rebuilding chunking with **hybrid dense-sparse retrieval** and re-ranking.

Nomura Research Institute Financial Technologies | *Software Engineer*

Sep 2019 – Aug 2023

- Shipped **Java/Spring** web applications and **React/Redux/TypeScript** front ends end to end, translating business requirements and mock-ups into features for **1M+ users**.
- Built **RESTful web services** and **HTML5/CSS3/AJAX** interfaces in a **Scrum**-based agile team, across **25+ production microservices** on **AWS** at **99.9% uptime**.
- Designed **relational database** schemas and **Oracle PL/SQL** data layers, tuning queries for low-latency reads.

PROJECTS

LangFetch

tinyurl.com/LangFetch

- LangGraph** agent decomposing natural-language questions into dependency-ordered SQL subqueries with hybrid retrieval and re-ranking; deployable as an **MCP** server.

Watch-your-LLM

github.com/ganeshhgupta/watch-your-llm

- LLM evaluation** platform with rubric-based scoring, drift detection, and latency tracking across model versions; **FastAPI**, **PostgreSQL**, regression alerting.

RootCause AI

github.com/ganeshhgupta/rootcause-ai

- Multi-agent** incident-diagnosis system with **tool-use** chains that collects evidence from logs and metrics and synthesizes root-cause reports.

EDUCATION

University of Texas at Arlington | *M.S. Computer Science, GPA 4.0/4.0*

Aug 2023 – May 2025

MCKV Institute of Engineering | *B.Tech Computer Science*

Jul 2016 – Jul 2020

SKILLS

Languages: Java, JavaScript (ES6), TypeScript, Python, SQL

Frontend: React, Redux, Node.js, HTML5, CSS3, AJAX, Web Services

Backend & Cloud: Spring, FastAPI, REST APIs, Relational Databases (Oracle, PostgreSQL), AWS, GCP, Docker, Kubernetes

Practices: Object-Oriented Design, Design Patterns, Scrum/Agile, Test Automation, Unix Shell

Fundamentals: Data Structures & Algorithms, Operating Systems, Database Systems, Computer Networks, HTML, CSS

Certifications: AWS Certified Developer Associate, Google Cloud Professional Machine Learning Engineer
