EXPERIENCE

Oracle | *Software Engineer, AI Platform*

Jun 2025 – Present

- Built **AI-powered agents and workflows** with **LangGraph**, **CrewAI**, and the **OpenAI Agents SDK** that analyze code and technical artifacts, taking **multi-agent** systems to production at **millions of daily transactions**.
- Built **evaluation frameworks for AI-driven workflows**: a deployment-gated eval and regression **testing** system in **CI/CD** that blocked **15%** of failed releases before production.
- Designed **orchestration infrastructure**: a pluggable **distributed executor** in **Python** routing jobs across **Docker** and **AWS Lambda** with an **S3** artifact store and normalized results.
- Built **multi-model** routing across **GPT**, **Claude**, **Llama**, and **Gemini** with **MCP** tool use, plus **Prometheus/Grafana** monitoring for production debugging.

QureAI | *ML Infrastructure Engineer*

Mar 2026 – Present

- Owned **ML infrastructure** end to end, from model deployment to evaluation and debugging, cutting **p99 latency 420ms to 140ms** across **50K+ daily requests**.
- Improved retrieval recall **61% to 89%** on a 2K-query eval set by rebuilding chunking with **hybrid dense-sparse retrieval** and re-ranking.

Nomura Research Institute Financial Technologies | *Software Engineer*

Sep 2019 – Aug 2023

- Built **APIs** and automated workflows across **25+ production microservices** in **Java** and **Python** for **1M+ users** at **99.9% uptime**, applying secure-coding practices in a regulated financial-services environment.
- Designed **data models** and tuned **SQL** queries on **Oracle PL/SQL** data layers for low-latency reads.
- Standardized failure-handling contracts across services and drove root-cause analysis, cutting production escalations **60%** in one quarter.

PROJECTS

RootCause AI

github.com/ganeshhgupta/rootcause-ai

- Multi-agent** incident-diagnosis system with **tool-use** chains that collects evidence from logs and metrics and synthesizes root-cause reports.

Watch-your-LLM

github.com/ganeshhgupta/watch-your-llm

- LLM evaluation** platform with rubric-based scoring, drift detection, and latency tracking across model versions; **FastAPI**, **PostgreSQL**, regression alerting.

LangFetch

tinyurl.com/LangFetch

- LangGraph** agent decomposing natural-language questions into dependency-ordered SQL subqueries with hybrid retrieval and re-ranking; deployable as an **MCP** server.

EDUCATION

University of Texas at Arlington | *M.S. Computer Science, GPA 4.0/4.0*

Aug 2023 – May 2025

MCKV Institute of Engineering | *B.Tech Computer Science*

Jul 2016 – Jul 2020

SKILLS

Languages: Python, Go, Java, C++, SQL

AI & Agents: Agentic Workflows, Multi-Agent / Multi-Model Systems, Frontier LLMs, AI Evaluation Frameworks, LangGraph, MCP

Backend & Systems: Distributed Systems, APIs, Data Modeling, Query Optimization, Kafka-style Messaging, PostgreSQL, Redis

DevOps & Security: CI/CD, Source Control, Automated Testing, Monitoring, Secure SDLC, Docker, Kubernetes, AWS, GCP

Fundamentals: Data Structures & Algorithms, Operating Systems, Database Systems, Computer Networks, HTML, CSS

Certifications: AWS Certified Developer Associate, Google Cloud Professional Machine Learning Engineer
