EXPERIENCE

Oracle | *Software Engineer, AI Platform*

Jun 2025 – Present

- Architected agentic workflows and multi-agent systems via LangGraph, CrewAI, AutoGen, and the OpenAI Agents SDK, with MCP tool-calling for integration into a proprietary internal AI development platform.
- Translated cutting-edge agentic AI research into production-grade software, writing hands-on code daily while setting technical direction across the platform's agent architecture.
- Built a deployment-gated evaluation framework enforcing guardrails and quality/regression checks across agent outputs, blocking 15% of failed releases before production.
- Designed and optimized GenAI workflows across multiple foundation models (GPT, Claude, Llama, Gemini), architecting platform APIs enabling teams to build and launch agentic applications end-to-end.

QureAI | *ML Infrastructure Engineer*

Mar 2026 – Present

- Escalated agent-to-agent task delegation via the A2A protocol, connecting a primary agent to a specialized SQL agent for grounded, explainable query execution in production.
- Improved RAG retrieval recall 61% to 89% on a 2K-query eval set by rebuilding the chunking pipeline with hybrid dense-sparse retrieval and re-ranking.

Nomura Research Institute Financial Technologies | *Software Engineer*

Sep 2019 – Aug 2023

- Architected and operated 25+ production Java and C++ distributed microservices for 1M+ users, sustaining 99.9% uptime over 3 years on AWS; led architecture decisions and code-review sessions.
- Standardized failure-handling contracts across 25+ services, reducing production escalations 60% in one quarter via consistent retry, timeout, and propagation semantics.

PROJECTS

RootCause AI

github.com/ganeshhgupta/rootcause-ai

- LangGraph multi-agent system automating production incident diagnosis via tool-use chains; routes alerts to specialized sub-agents and synthesizes evidence-backed root cause reports.

LangFetch

tinyurl.com/LangFetch

- LangGraph agent with MCP-compatible tool-use compiling natural-language questions into dependency-ordered SQL subqueries; deployed as an MCP server for enterprise data queries.

Watch-your-LLM

github.com/ganeshhgupta/watch-your-llm

- Production LLM/agent evaluation platform with rubric-based scoring, drift detection, and regression tracking across model and agent versions; FastAPI backend, PostgreSQL.

EDUCATION

University of Texas at Arlington | *M.S. Computer Science, GPA 4.0/4.0*

Aug 2023 – May 2025

MCKV Institute of Engineering | *B.Tech Computer Science*

Jul 2016 – Jul 2020

SKILLS

Languages: Python, TypeScript, Java, C++, SQL

Agentic AI Architecture: LangGraph, CrewAI, AutoGen, OpenAI Agents SDK, MCP, A2A, Multi-Agent Orchestration

GenAI & LLM Orchestration: LLMs (GPT, Claude, Llama, Gemini), RAG, LangChain, Model Evaluation, Guardrails

Platform & Infra: Distributed Systems, Platform API Architecture, Deployment Gating, Observability

Cloud & DevOps: AWS, GCP, Docker, Kubernetes, CI/CD, PostgreSQL

CERTIFICATIONS

AWS Certified Developer Associate | Google Cloud Professional Machine Learning Engineer
