EXPERIENCE

Oracle | *Software Engineer, AI Platform*

Jun 2025 – Present

- Built **multi-agent workflows** with **OpenAI Agents SDK** and **MCP**, processing **millions of daily transactions** at **99%+ uptime**.
- Shipped AI products end-to-end with **React/TypeScript, Node.js/Python**, and **GitHub Actions CI/CD**.
- Routed distributed pipeline nodes to **Docker** or **AWS Lambda**; **S3** artifact memoization eliminated redundant recomputation.
- Built **LLM evaluation harnesses** for safety, hallucination, and grounding; iterated on results and production usage data.

QureAI | *ML Infrastructure Engineer*

Mar 2026 – Present

- Improved **RAG recall 61% to 89%** on **2K queries** using hybrid dense-sparse retrieval and re-ranking.
- Integrated **AWS Bedrock** models into production agentic workflows alongside **vLLM/TensorRT-LLM** serving.
- Built **model observability** tracking drift, latency, and eval regressions, with **CI/CD rollback** workflows.

Nomura Research Institute Financial Technologies | *Software Engineer*

Sep 2019 – Aug 2023

- Operated **25+ Java microservices** for financial transactions and **1M+ users** at **99.9% uptime** on **AWS** (EC2, RDS, SQS).
- Cut SQL aggregation blocking financial settlement from **8 minutes to 90 seconds** with indexed views and batch partitioning.
- Standardized retry, timeout, and failure contracts across **25+ financial services**; cut escalations **60%**.

PROJECTS

LangFetch

tinyurl.com/LangFetch

- **LangGraph** agent decomposes multi-table questions into dependent **SQL subqueries**; exposes an **MCP-compatible** server.

Watch-your-LLM

github.com/ganeshhgupta/watch-your-llm

- **LLM eval platform** with rubric scoring, drift and latency tracking; **FastAPI, React/TypeScript, PostgreSQL**.

RootCause AI

github.com/ganeshhgupta/rootcause-ai

- **LangGraph multi-agent** incident diagnosis routes alerts to specialized agents and synthesizes root cause reports, reducing **MTTR**.

EDUCATION

University of Texas at Arlington | *M.S. Computer Science, GPA 4.0/4.0*

Aug 2023 – May 2025

MCKV Institute of Engineering | *B.Tech Computer Science*

Jul 2016 – Jul 2020

SKILLS

Languages: Java, Python, TypeScript, JavaScript, SQL; Data Structures and Algorithms

AI/Agents: OpenAI Agents SDK, LangGraph, MCP, RAG, Pinecone, prompt engineering, LLM evaluation

Platforms: AWS (Lambda, S3, Bedrock), Azure, Docker, GitHub Actions CI/CD, React, HTML/CSS, Node.js, Spring Boot

CERTIFICATIONS

AWS Certified Developer Associate | GCP Professional MLOps Engineer
