EXPERIENCE

Oracle | *Software Engineer, AI Platform*

Jun 2025 – Present

- Built full-stack features end-to-end with **React (Hooks, Redux)** frontends wired to **Python** backends via typed **REST APIs**, with **GitHub Actions CI/CD**.
- Engineered a **distributed executor** deployed on **Kubernetes**, backed by an **S3** artifact store at **sub-200ms p99 latency**.
- Deployed production **AI workloads** on **Azure** alongside **AWS**, using **Azure-native services** for pipeline orchestration.
- Implemented **OAuth**-based auth and **RBAC**; participated in **design reviews** and **code reviews**.

QureAI | *ML Infrastructure Engineer*

Mar 2026 – Present

- Rebuilt a synchronous service into an **async, autoscaled** architecture on **GCP Cloud Run** with **Kubernetes**-managed autoscaling, cutting **p99 latency from 420ms to 140ms** across **50K+ daily requests**.
- Built and maintained backend services on **PostgreSQL** and **MongoDB**, with automated **CI/CD rollback** and failure alerting.

Nomura Research Institute Financial Technologies | *Software Engineer*

Sep 2019 – Aug 2023

- Architected and operated **25+ production Java and Python microservices** for **1M+ users** at **99.9% uptime** over 4 years on **AWS (EC2, RDS, SQS)**.
- Designed high-throughput **SQL** and **NoSQL** data pipelines, cutting nightly aggregation from **8 minutes to 90 seconds** via **indexed views** and batch partitioning.
- Led **code-review** sessions and mentored engineers on system design and reliability.

PROJECTS

Watch-your-LLM

github.com/ganeshhgupta/watch-your-llm

- Built a full-stack observability platform with a **React** dashboard, **FastAPI** collector, and **PostgreSQL** store, tracing requests and latency end-to-end.

LangFetch

tinyurl.com/LangFetch

- Built a full-stack agentic **SQL** workspace with a **React** frontend and **Python/FastAPI** backend over **PostgreSQL**.

VPC Control Plane Simulator

github.com/ganeshhgupta/vpc-control-plane-sim

- Built a full-stack **React** application simulating AWS-style **VPC** networking, with **CIDR** validation and a **PostgreSQL** backend.

EDUCATION

University of Texas at Arlington | *M.S. Computer Science, GPA 4.0/4.0*

Aug 2023 – May 2025

MCKV Institute of Engineering | *B.Tech Computer Science*

Aug 2016 – Jul 2020

SKILLS

Languages: Python, Java, SQL, Shell Scripting

Frontend: React, React Hooks, Redux

Backend: FastAPI, REST APIs, MongoDB, PostgreSQL, NoSQL

Cloud & DevOps: Azure, Kubernetes, AWS, GCP, Docker, CI/CD

Certifications: AWS Certified Developer Associate, GCP Professional MLOps Engineer
